PROFILE

Hi! I'm Brogan, a voice actress with 2+ years experience, based in the South West of England. My general accent is British RP and I have a range of other accents in my repertoire. I have experience in video games, animation, commercial and narration.

I have a huge love of video games, having been an avid gamer since childhood. This love has helped me with the many variety of roles I have played in games, be that the evil villain, the friendly farmer, the noble Queen.

I am able to work remotely and also travel within the UK for work.
